

VacuGraph – for Windows and Android!

- Your intuitive monitoring, data logging and analysing tool for all Thyracont digital gauges
- Use it on Windows PCs and Laptops or with Android tablets (via Bluetooth)
- Set and control all gauge and measurement parameters
- Save data and export it to Microsoft Office (e.g. Excel, Access...)
- Print measurement data and graphs
- Calculate leakage rates easily
- Monitor and plot vacuum measurement data for quality checks and vacuum system qualification

Read out the QR Code with your Android tablet and download your VacuGraph™ App at Google PlayStore!
